

Mayar Akok

IT Support Specialist

✉ akokmayar607@gmail.com ☎ 0798734353

Detail-oriented and adaptable IT trainee with a strong foundation in software development, database management and cloud computing. Skilled in troubleshooting technical issues, supporting system operations, and maintaining data integrity.

Eager to contribute to IT support, systems maintenance, and AV operations while delivering excellent service in a professional and multicultural environment.

Experience

● Software Developer/IT support

Moringa School/Kenya Red Cross Society

- Provided technical support during development by troubleshooting system and integration issues.
- Designed and maintained structured relational databases ensuring data accuracy and integrity.
- Assisted in backend system development and resolved API-related technical challenges.
- Supported deployment and maintenance of applications using cloud-based platforms.
- Maintained documentation for systems and workflows to ensure clarity and continuity.
- Collaborated with teams using Git for version control and efficient project coordination.
- Participated in testing, debugging, and system improvements to enhance performance.
- Designed digital materials (posters, UI layouts) supporting communication and usability.

● AWS Cloud Practitioner

eMobilis Institute of Technology

- Gained a solid understanding of core concepts of cloud computing and AWS services like EC2, S3, IAM and VPC
- Navigated the Linux command line, manage files, users and systems.
- Learned the basics of IP addressing, routing, firewalls and applied cloud security best practices
- Deployed and managed AWS resources using both the CLI and AWS Management Console
